CHALLENGED WITH ENVIRONMENTAL HEALTH & SAFETY (EHS) COMPLIANCE OR FIND YOURSELF ASKING THESE QUESTIONS:

- Which OSHA and environmental regulations apply to my company?
- How do I know if our facility has identified and meets all the federal, state and local regulations?
- How do I keep up with EHS compliance when regulations and our operations are constantly changing?
- How can I ensure we develop our program right the first time and are confident we can sustain it?
- How do I support the person(s) assigned to EHS responsibilities when they wear multiple “hats?”
- How do I best structure the EHS function when we keep losing our staff or can't find anyone?

INTRODUCING

EHS COMPLIANCE AS A SERVICE (CaaS) FROM U.S. COMPLIANCE

The proven, smarter way manage your Environmental, Health & Safety requirements.

OUR SUPERIOR SUBSCRIPTION SERVICE MODEL INCLUDES:

Delivered for a predictable flat monthly fee

No hourly rates

Comprehensive EHS compliance expertise and support

Quick response to environmental and OSHA compliance concerns

Dedicated personal point of contact with regular facility visits

Comprehensive support to ensure successful OSHA and EPA inspection outcomes

Customized training from people who become extensions of your EHS team

Always-on expertise that will never walk out the door

BENEFITS OF SERVICE

- The significant “halo affects” of having a comprehensive EHS Management Program implemented throughout the organization – driving employee engagement/culture.
- Avoid needless and expensive fines from the EPA, local Agencies or OSHA.
- Always having a team of experts “on call” and who serve, not bill clients.
- Make your existing internal resources more effective with proper support and tools.
- 3rd Party expertise and validation that allows you to focus on growing your business!

Our unique Compliance as a Service (CaaS) model provides support from an entire team of EHS professionals with a wide range of expertise across multiple departments including: Occupational Health & Safety and Environmental compliance support in the areas of Air Permitting, Tier II, Form R, Waste Management, Stormwater, Wastewater, SPCC, Tanks, etc.

CARE | PROTECT | GROW
